Education

Bachelor of Science in Computer Science and Engineering *Expected Graduation: 2025*
BRAC University, Bangladesh
Current CGPA: 3.9/4.0
HSC in Science *Graduated: 2022*
Notre Dame College, Bangladesh
GPA: 5.00/5.00

Skills

- **Programming Languages:** Python, Solidity, JavaScript, TypeScript, C, C++
- **Frameworks/Tools:** Next.js, ethers.js, Tailwind CSS, Foundry, HardHat, Pygame, Unity
- **Web3 Expertise:** Ethereum Virtual Machine (EVM), smart contracts, decentralized applications
- **UI/UX Design:** Figma, Canva
- **Other Tools:** Truffle, Ganache, Prisma, MongoDB, Framer Motion

Projects

CrowdEther - Decentralized Crowdfunding Platform
Technologies: Solidity, Next.js, Prisma, SqLite, Typescript, Foundry
- Engineered smart contracts for a secure and transparent CrowdFunding process. - Implemented secure, transparent, and user-friendly crowdfunding mechanism with live data showing and all stored on chain.
ChainProof - Decentralized Identity Ledger
Technologies: Solidity, Foundry, Next.js, ethers.js, Prisma, MongoDB, Tailwind CSS
- Built a decentralized system for identity verification and ledger management. - Implemented features allowing users to request data verification and administrators to approve it. - Focused on privacy and access control using Solidity.
SendAi - Crypto-Sending Platform
Technologies: Solidity, Next.js, ethers.js, Foundry, Typescript
- Developed a Uniswap-like platform for seamless cryptocurrency transfers. - Designed intuitive interfaces and secure smart contracts for transaction handling.
Cryptix - Decentralized E-Ticketing System
Technologies: Solidity, Next.js, Prisma, SqLite, Typescript, Foundry
- Engineered smart contracts for ticket issuance and validation. - Implemented secure, transparent, and user-friendly ticketing mechanisms.
Slime - Let's Go
Technologies: C, Unity
- Game based on leveling with killing random monster spawn. - Have different weapons that can be upgraded by using Aura.

Certifications

- Professional Certificate in Blockchain Development (Coursera) - Professional Certificate in DApps (Coursera) - Professional Certificate in Python (Coursera)

Experience

Freelance Work for Peers *2020 - Present*
- Designed UI/UX for personal and peer projects using Figma and Canva. - Provided technical consultation on blockchain projects and smart contract development.

Extracurricular Activities

- Current Senior Executive of BUEDF, best Executive on Entrepreneurs Fest 3.0, Chief Organizer of Chase au Tresor - Active participant in tech forums and hackathons. - Former member of design teams for student clubs and organizations.

Languages

- English: Fluent (IELTS preparation in progress) - Bengali: Native
